

NORTHEAST SCHOOL CORPORATION

PESTICIDE* APPLICATION

NOTIFICATION REQUEST FORM

Periodically, Northeast Schools apply pesticides to areas inside the buildings as well as to the outside property.

The applications will be made to the buildings, lawns, landscape beds, athletic fields, trees and shrubs. Links to the product labels and MSD sheets will be provided at the administration building.

If you would like to be notified of such application due to health concerns, please fill out the following information and **return the form to your school's office.**

Student/Staff Member Name _____

Parent/Guardian Name _____

Address _____

City _____ State _____ Zip _____

I would like to receive notification on:

_____ Non-emergency treatments _____ Emergency treatments

(Check all that apply to your circumstance)

*PESTICIDE is defined as a fungicide used on plants, an insecticide, an herbicide or a rodenticide.
