NESC eLearning Day February 18, 2019

On Monday, Feb. 18 NESC will have an eLearning day to simulate a weather related school closing. The school buildings will be closed to all students. Teachers will post all lessons, assignments, and assessments on their Google Classroom by 9 a.m. for students in grades 6-12. Students in grades K-5 will have their packet of lessons sent home with them Friday, February 15, 2019. Students may contact their teacher or the technology helpdesk with any questions via email or through Google Classroom anytime from 9 a.m. to 2 p.m.

Office Hours
2.18.19
NCHS 9am-2pm
NEMS 9am-2pm
NENE 9am-2pm
NEEE 9am-2pm

All students will have a total of three days to complete eLearning day assignments. This time frame will give students who have limited or no internet access additional time to complete assignments. Please note that all county public libraries, as well as several local businesses, provide the community with free internet and/or wifi access.

Will my child know what to do on the eLearning days?

NESC middle school and high school teachers use Google Classroom, our learning management system, with their students on a daily basis. Elementary teachers and students have discussed what to do on an eLearning day in their classrooms. Elementary teachers will provide a packet of lessons for the eLearning day and will be available by email if students are having any difficulty with their assignments.

Will my child's school building be open February 18?

No. NESC school buildings **will not be open** for students on Monday, February 18. NESC will evaluate the eLearning day process to determine if we need to make any changes in order for future use in inclement weather and school closings.

What are the types of eLearning school days?

What is eLearning?

eLearning is learning utilizing electronic technologies to access educational curriculum outside of the traditional classroom.

Planned Professional Development eLearning day is an eLearning day scheduled in advance by the school corporation. During this type of planned eLearning day, students complete their school work at home while teachers participate in professional development or school improvement activities. Teachers will have designated online office hours, specified by their school principal, to answer any student questions through email or Google Classroom.

Planned Make-Up eLearning day is an eLearning day scheduled in advance on a make-up inclement weather day. On a make-up inclement weather day, eLearning day teachers and students work off school campus. Teachers post assignments on Google Classroom and will be available to answer any student questions through email or Google Classroom from 9 a.m. to 2 p.m.

Emergency eLearning day occurs when inclement weather may require a school closing. Instead of declaring a snow day, the district may choose to conduct an eLearning day. Students stay at home and complete school work assigned to them through their Google Classroom. All assignments are posted by 9 a.m. Elementary teachers will provide a packet of student lessons on the next day school resumes. Teachers will have online office hours from 9 a.m. to 2 p.m. to answer any student questions through email or Google Classroom.

What is the goal of eLearning days?

The NESC goal for every school day is to provide the best educational opportunities for all students; therefore, NESC seeks to provide seamless educational experiences and instructional opportunities even when the traditional classroom environment is not available.

What days will be utilized as K-12 eLearning days for the 2018-2019 school year?

NESC will conduct its first corporation-wide eLearning day on **February 18**. This eLearning day will serve as the required make-up day for the weather-related district closing that occurred January 30, 2019.

For more information, go to the school's website (www.nesc.k12.in.us). Please contact your child's school with any questions.
