

Good evening,

Thank you for your continued support of the Northeast School Corporation as we address the rapidly evolving Coronavirus pandemic.

NESC is working closely with local health officials to determine the best course of action during this unprecedented time. After receiving guidance from the Governor, and through discussions with area school administrators, NESC will close all schools and all the buildings will be closed to the public.

Sullivan County does not have any confirmed cases of COVID-19. The purpose of school closure is to take a proactive approach to help mitigate the spread of illness through the practice of social distancing. Health officials in Sullivan County recommend families make arrangements to self-isolate at home and avoid areas such as daycare, movies, shopping, and other social gatherings in order to limit potential exposure. The extended closure also will allow time for additional cleaning of buildings and buses.

Please review the following details of our contingency plan during this closure:

School is closed for the next three weeks as of 5:00 tonight.

Exception: Fish Fry Saturday - drive thru service only

Mon - Thurs (March 16-19) eLearning

Fri (March 19) No School (was a make-up day if needed)

Mon - Fri (March 23-27) Spring Break

Mon - Fri (March 30 - April 3) No School - using five "Waiver" Days

Mon Apr 6th Re-evaluate and decide if we will have a regular school day or an eLearning Day or a Waiver Day.

All practices and/or games are cancelled at least through April 5th. That includes all AAU and travel teams. No Field Trips.

Administrators will re-evaluate this changing situation the week of March 30 to determine if additional measures are needed. We recognize there will be questions during this time and we appreciate your patience as we work through the details.

NESC will continue to provide communication as information becomes available. Updates will be provided via school messenger, email, and the district website ([www.nesc.k12.in.us](http://www.nesc.k12.in.us)).

If you are unable to reach your child's school and have questions during the school closure, please contact the NESC Central Office at 812-397-5390.
